

Day & Night® Residential Warranties at a Glance

MAXIMUM STRENGTH WARRANTIES FOR HOMEOWNERS

Every Day & Night® home comfort product is backed the way it's built—to be the best. How do you know for sure? Warranty coverage. When it comes to such a major investment, there's no better gauge of quality. Maximum strength warranties give you exceptional protection and provide lasting satisfaction with your Day & Night product. Your heating and air conditioning dealer will recommend the best product options for your home and installation requirements.

NO HASSLE REPLACEMENT™ LIMITED WARRANTY

Select Day & Night heating and cooling products provide a one-time equivalent unit replacement if the compressor, outdoor coil, evaporator coil (fan coils only), or heat exchanger should fail during the No Hassle Replacement™ limited warranty period, which varies in length of coverage from 1 to 10 years to the original purchaser. As the product features and efficiencies get better, so does the No Hassle Replacement limited warranty in order to give you the maximum protection for your heating and cooling system.

PARTS LIMITED WARRANTY

Day & Night gas and oil furnaces and R410A-based air conditioners, heat pumps, fan coils, geothermal, ductless systems and small package products carry a 10-year limited warranty on parts to the original owner, when product is used in a residential application and properly registered within 90 days after original installation. Otherwise, the parts warranty period is five years from the date of installation. The remainder of the first five years of parts warranty is available to subsequent owners, but such coverage terminates on the five-year anniversary of the original installation of the product. Please see additional key component warranty details below:

THE HEART OF THE HEATING SYSTEM

Day & Night Heating & Cooling Products back the heat exchanger with longer limited warranty periods (up to lifetime available on select models) to the original owner, when product is used in a residential application and properly registered within 90 days after original installation. Coverage varies by furnace type, so please see enclosed charts for length of coverage details.

THE HEART OF THE COOLING SYSTEM

Compressors in Day & Night cooling products utilizing environmentally sound R410A refrigerant carry a 10-year limited warranty to the original owner, when product is used in a residential application and properly registered within 90 days after original installation.

Minimum Air Conditioner Efficiencies

On January 1, 2015, a new set of minimum efficiency standards took effect. Under the new standards, there are different efficiency minimums for air conditioners in each of three regions—North, Southeast and Southwest. The national minimum efficiency standard for heat pumps is 14 SEER/8.2 HSPF.

*12.2 EER=45,000 Btu/h, 11.7 EER=45,000 Btu/h

* Three-year No Hassle Replacement™ limited warranty for tin-coated coil models.

#1 – Day & Night gas and oil furnaces and R410A-based air conditioners, heat pumps, fan coils, geothermal, ductless systems and small package products carry a **ten (10) year limited warranty on parts**, including compressor and condenser coil, to the original owner, when product is used in a residential application and properly registered within 90 days after original installation. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.) Otherwise, the warranty period is **five (5) years** from the date of installation. Heat exchangers carry longer

limited warranty coverage that applies to original homeowners with timely registration. Otherwise, heat exchanger warranties are 10–20 years from date of installation, depending on model. Check individual listings. Restrictions apply. See Warranty Certificate for details.

#2 – See Warranty Certificate for details on the No Hassle Replacement™ limited warranty. Go to DayandNightComfort.com to view the most current and complete Warranty Certificate for further details.

Many models are ENERGY STAR® qualified. Ask your contractor for details or visit www.energystar.gov.

All systems tested and listed by the appropriate agencies.
